@SimonHorrobin I agree with there is an "optimum size for your endeavour", just keeping things small comes at a cost too #RSATaleb

02-Dec-11 15:36 | amehonic

RT @SimonHorrobin: Instead of #RSATaleb's "fragility increases with size so big is bad, small is good" I see it as "there's an optimum size for your endeavour"

02-Dec-11 15:35 | amehonic

Instead of #RSATaleb's "fragility increases with size so big is bad, small is good" I see it as "there's an optimum size for your endeavour"

02-Dec-11 09:27 | SimonHorrobin

#RSATaleb says that size is bad. I don't buy this. Small avoids #BlackSwan death by getting massacred by white swans first.

02-Dec-11 09:16 | SimonHorrobin

#RSATaleb last night proposed that fragility is not opposite to robustness - fragility is concave to size while robustness is flat.

02-Dec-11 09:03 | SimonHorrobin

Meant to come home to process after combo of #mrg2011 and #rsataleb. Instead, socialising on a mass scale. Fun, but doesn't help the SADS

01-Dec-11 23:46 | curiouslylp

Still trying to decide what I thought of #RSATaleb lecture. Views on danger of big govt & big corps (dangerously fragile) make sense...

#RSATaleb Big Gov, Big Co's, Big Software, Big Planning - all mad, bad and dangerous. All Say 'in public interest' - all wrong.

01-Dec-11 19:44 | antonyslumbers

Taleb makes point that big organisations are no different to big govt. If you're against one, you should be against the other #RSATaleb

01-Dec-11 19:30 | G_Price

2/2 .. So the situation that plans against fragility thus eventually further promotes it. #(un)intendedConsequence? #rsataleb

01-Dec-11 19:15 | simontgoldsmith

Tory advisor at #rsataleb employ Taleb to advise on breaking up public sector orgs. Hypothetically these get privatised, consolidated.. 1/2
